## Revision History

REV	EDITOR	DESCRIPTION	APPROVAL	DATE
A	KJH	-Initial Release	KJH	08/17/12

## 1 Introduction

Logic PD is announcing the discontinuance of the -20 version of the DM3730 Torpedo Development Kit and the required migration to the -30 version of the development kit. The table below provides the full model numbers of the discontinued and replacement development kits.

Discontinued Model Number	Replacement Model Number
SDK-DM3730-20-256512R	SDK-DM3730-30-256512R

## 2 Migration Overview

Logic PD suggests migration to the -30 version of the DM3730 Torpedo Development Kit, which has been upgraded to include the DM3730 Torpedo + Wireless SOM in addition to the DM3730 Torpedo SOM. This change was significant enough to require that the model number version code be incremented from -20 to -30. Therefore, the former -20 version of the DM3730 Torpedo Development Kit is being discontinued and customers are encouraged to migrate to the new -30 version of the kit that is being instituted.

Additional details regarding the changes to the DM3730 Torpedo Development kit can be found in PCN 512 of the [DM3730 Torpedo Development Kit Product Change Notification](#)<sup>1</sup> document.

## 3 Last Time Buy Date

There is no last time buy date for the -20 version of the DM3730 Torpedo Development Kit, as the updated -30 version of the development kit is available for immediate purchase.
